EXPERIENCE

Combat Mission & Combat Support Team Leader (Director) Jan 2021 – Nov 2023
United States Army (Fort Eisenhower, GA)

- Led offensive cyberspace operations teams (20+ to 55+ personnel) responsible for delivering cyberspace effects in support of national security and military objectives.
- **Managed concurrent projects with multiple lines of effort** requiring coordination, integration, and synchronization across the Department of Defense, Intelligence Community, US Government Interagency, and coalition nations.
- Supervised the planning, resourcing, and execution of tactical offensive cyberspace operations and the development, analysis, and production of Signals Intelligence in support of operations.
- **Coached, trained, and mentored** junior leaders on cyberspace operations, leadership, and the Army profession.
- **Mentored, trained, evaluated, and certified** personnel to perform US Cyber Command and US Army Cyber Command work roles and to conduct Signals Intelligence activities.
- **Assessed** Cyber Mission Force teams against US Cyber Command readiness standards and **certified teams as fully mission capable** to conduct offensive cyberspace operations.

Combat Mission Team Operations Officer Jan 2016 – Dec 2020
United States Army (Fort Eisenhower, GA; Paris, France)

- **Planned, resourced, and executed over 300 complex tactical offensive cyberspace operations** in support of national security, military, and intelligence objectives.
- **Subject matter expert and advisor** on intelligence, operations, and enterprise and operational risk management.
- **Coordinated, integrated, and synchronized operations** across the Department of Defense, Intelligence Community, US Government Interagency, and coalition nations.
- **Supervised 30+ personnel**, including mission element commanders, analysts, and operators.
